

Temples, Rivers and Island Shores: Cambodia for Four

Prepared exclusively for Cambodia · Temples, Rivers and Island Shores: Cambodia for Four

You asked for a balanced, family-friendly journey through Cambodia covering ancient temples, river life, cultural workshops and coastal escapes, all with gluten-free dining in mind. We have shaped an 11-night route across three distinct bases: the historic capital Phnom Penh, the temple heartland of Siem Reap, and the island paradise of Koh Rong. Each location gives you a natural cluster of the experiences you have chosen, with a comfortable pace that works well for children and adults alike.

Vaccinations: The NHS and most travel clinics recommend being up to date with hepatitis A, typhoid and routine vaccinations before visiting Cambodia. Malaria prophylaxis is worth discussing with your GP, particularly for the jungle trek near Siem Reap and any rural areas around Koh Rong.

Dress code: When visiting temples and pagodas (including Angkor, Bayon and the Royal Palace), both adults and children must cover shoulders and knees. Lightweight cotton scarves packed in day bags are a practical solution in the July heat.

Gluten-free dining: Cambodian cuisine is naturally very rice- and rice-noodle-based, which makes gluten-free eating relatively manageable. However, soy sauce and oyster sauce are common condiments, so always communicate 'no soy sauce, no wheat' clearly. The phrase to learn is 'min yok soy sauce, min yok mee bot' (avoid wheat/soy sauce). Reputable restaurant staff in tourist areas are generally well-versed in dietary needs.

Currency and payments: The Cambodian Riel is the official currency, but US Dollars are accepted almost everywhere and often preferred. Carry a mix of small-denomination USD notes. Card payments are accepted in better hotels and restaurants in Phnom Penh and Siem Reap.

July weather: Late July sits in Cambodia's rainy season. Expect short, heavy afternoon downpours rather than all-day rain. Mornings are usually clear and brilliant, making them ideal for outdoor sightseeing. Pack light rain jackets and a dry bag for the boat and kayaking days.

For Gluten Free, make sure you have an allergy card in their national language [link here](<https://legalnomads.gumroad.com//GFcambodia>)

Siem Reap and Angkor

Siem Reap is the kind of place that feels almost impossibly exciting for a family with curious children. The temples are not a museum you walk around: they are a living landscape of jungle-wrapped towers, stone faces and hidden courtyards that genuinely feel like discovery. Beyond Angkor, the town itself has wonderful markets, a buzzing night scene and some of the most interesting cultural workshops in all of Southeast Asia. Five nights here gives you the time to do it properly without burning anyone out. While navigating the open-air stalls inside the market can be tricky due to cross-contamination risks and hidden wheat in local sauces (like standard soy or oyster sauce), the streets flanking the market are home to some of Cambodia's best gluten-free and celiac-friendly establishments.

Men and women were placed in separate caves and clothes in another. There are a number of caves at Phnom Sampeau that have traditionally served as Buddhist temples. Koh Rong Islands and the Coast

After the intensity of temples and history, ending the trip on Koh Rong is the best possible reward for everyone, children and adults equally. The water here is some of the clearest you will find in Southeast Asia, the pace drops completely, and there is just enough to do (kayaking, snorkelling, beach walks) to feel active without any pressure. Four nights is the sweet spot: long enough to properly unwind, short enough to leave you wanting to return. While finding gluten-free food on a tropical island can feel daunting, Koh Rong actually has a few standout restaurants where the owners specifically cater to celiacs and gluten-sensitive travellers. It is still a good idea to bring snacks from the mainland as supermarkets are scarce.

The marine life here is genuinely lovely, with reef fish and occasional sea turtles. All activities can be booked on the Island. It is small and so difficult to find pre-bookable activities. I recommend waiting til you get there to book what you want on the days that you want - below is just a rough guide.

GOOD TO KNOW BEFORE YOU GO

- Gluten-free eating is genuinely easier in Cambodia than in many Asian destinations because rice and rice noodles (not wheat) form the base of almost everything. Fish amok, lok lak, and bai sach chrouk (pork and rice) are all naturally gluten-free. Your biggest watch point is shared cooking oil in street stalls and soy sauce-based dipping sauces, so always ask.
- Tuk-tuks are the best way to get around both Phnom Penh and Siem Reap with children. They are cheap (rarely more than £3 for a short journey), children love them, and drivers often become informal guides. Agree a price before you set off and consider hiring the same driver for a full day, which is more economical and builds a lovely rapport.
- Angkor Archaeological Park tickets must be purchased at the official ticketing centre near Angkor Wat. They are not available online in advance. Arrive early on your first temple morning to avoid queues. Children under 12 enter free. Carry your pass at all times as it is checked at every temple gate.
- Koh Rong has very limited ATMs and they frequently run out of cash or are out of service. Bring sufficient USD in small denominations from Sihanoukville or Phnom Penh before you take the ferry. Most beach bars and restaurants on the island accept USD cash only.
- The rainy season in late July means some jungle paths and smaller rural roads can become muddy and slippery. Pack waterproof sandals or light trail shoes with grip for the whole family, especially for the Phnom Kulen jungle trek and any mangrove kayaking. Light ponchos fold flat in a day bag and are worth carrying every day.
- For Gluten Free, make sure you have an allergy card in their national language [link here](#)
